Kelly Beauglehole, Regional Geoscience Manager, DUG.

Kelly Beauglehole joins the DUG management team.

18 Feb 2015

In another major recruitment coup for DownUnder GeoSolutions, the company has secured Kelly Beauglehole to its management team.

Kelly joins DUG as Regional Geoscience Manager and will be responsible for all technical personnel and project delivery. Kelly is a well-known and highly respected seismic geophysicist in the Perth industry having held many senior management roles in this market. Following a long career as Chief Geophysicist and later Regional Manager at Fugro Seismic Imaging, he most recently held the position of Managing Director of ION-GX Technology.

Kelly is excited to be joining DownUnder GeoSolutions "There is an immense satisfaction in being part of a team that is so highly regarded in the industry. I am proud to be leading such a clever and dynamic group of geophysicists".

DUG Managing Director, Matt Lamont added "We're committed to only hiring the best of the best at DUG. We're thrilled to have Kelly join our team as he has the skills and experience we need to continue growing our business".
