

2012
CHRISTMAS
ALBUM

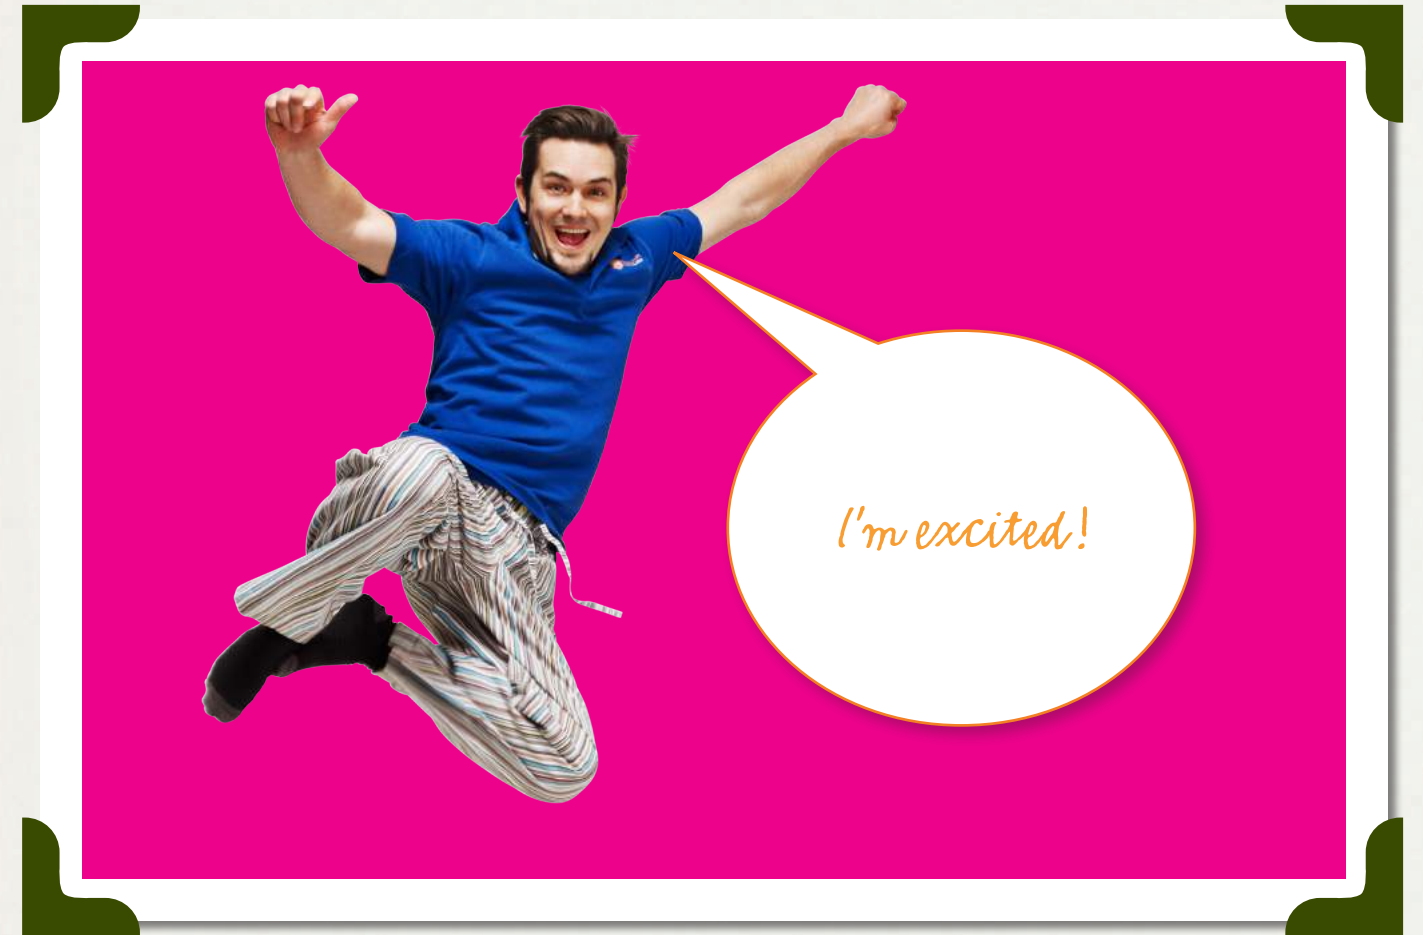

The DownUnder GeoSolutions family has had a big year in 2012. We thank you for being part of it. Enjoy the highlights. Xxx

We added
pore pressure prediction
to our suite of services
in early 2012...yeah!

*A milestone for
DUG Insight...we hit 500 users
and still going strong!*

*Our Houston office
opened mid year with
guns-a-blazing!*

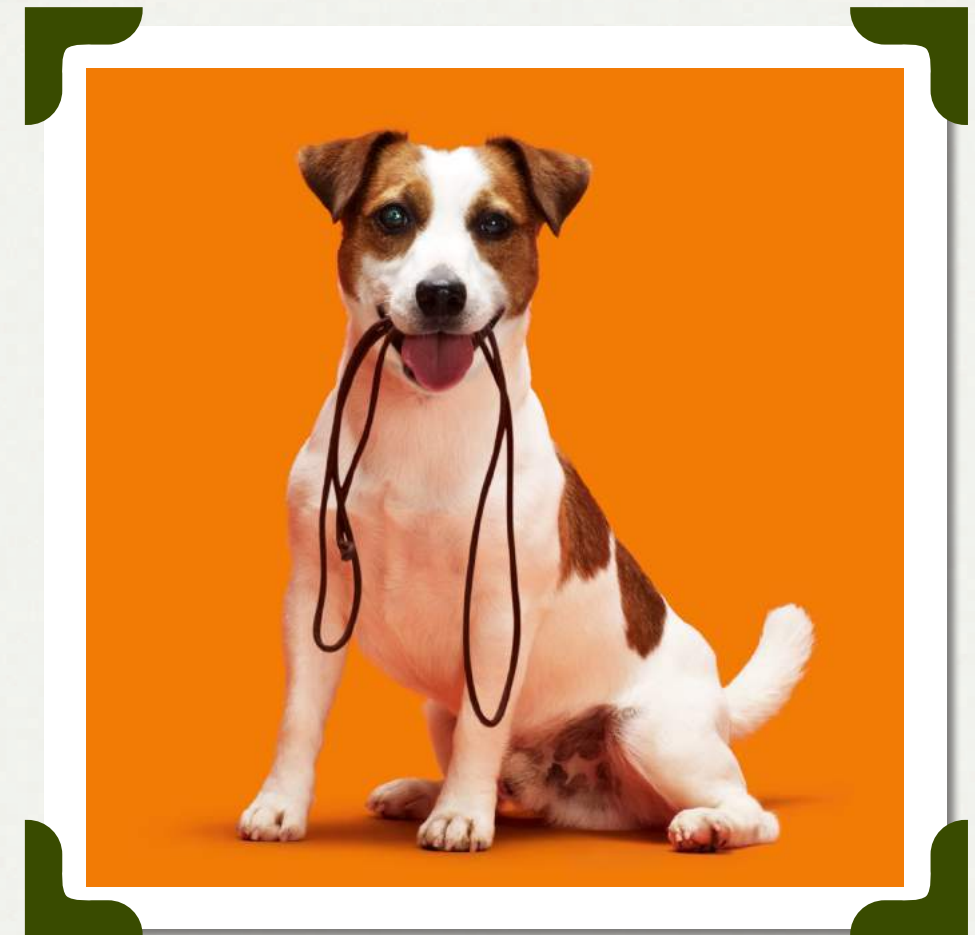

*The Queen launched our
London office in October
...Queen Margarita that is.
Real Down Under royalty!*

You can now take
DUG Insight 3 for a walk.
Betas are available to **download**
from our website.

We gave you three wishes at
our Arabian Nights Christmas party.
Most wished for no hangover the next day!
View the [photos](#) from the night here.

Matt,
you're quite the
little snake
charmer

*Merry
Christmas to all
our valued clients
and friends*
