

ASX Release

26 July 2024

Introduction to DUG webinar and investor briefing

DUG Technology Ltd (ASX: DUG) ("DUG" or the "Company") invites you to join an "Introduction to DUG" webinar and investor briefing at 2pm AWST / 4pm AEST on Wednesday 31 July 2024.

The webinar, to be hosted via Zoom, is suitable for investors new to the story and is aimed at helping new investors to better understand the DUG investment proposition.

Founder & Managing Director Matt Lamont will host the session and cover:

1. An overview of the DUG business
2. The competitive landscape in which DUG operates
3. An explanation of DUG's technology

The webinar will include an opportunity for questions, and be recorded and posted on DUG's website.

DUG will not be discussing the performance of the business for the FY24 financial year due to proximity of the webinar to the FY24 financial results (scheduled to be released to ASX on Thursday 22 August, and followed by a FY24 results webinar at 10am AWST / 12pm AEST on the same day).

Participants may register for the Introduction to DUG webinar at the following link:

https://us06web.zoom.us/webinar/register/WN_9ecUlydwTsmYqANyFvpRvA

After registering, you will receive a confirmation email containing information about joining the webinar.

Alternatively, participants may dial into the webcast for audio only:

Australian dial in numbers: +61 8 6119 3900, +61 8 7150 1149, +61 2 8015 6011, +61 3 7018 2005 or +61 7 3185 3730

Dial in numbers for other countries: <https://us06web.zoom.us/j/kcfPAWHBFi>

Meeting ID: 899 0818 2850

Passcode: 998719

This ASX Announcement has been approved for release by the Board of DUG Technology Ltd.

About DUG

DUG is an ASX-listed technology company, headquartered in Australia, that specialises in analytical software development, big-data services and reliable, green, high-performance computing (HPC). DUG is built on a strong foundation of applied science and a history of converting research into practical, real-world solutions. DUG delivers innovative software products and cost-effective, cloud-based HPC as a service backed by bespoke support for technology onboarding. DUG's expertise in algorithm development and code optimisation enables clients to leverage big data and solve complex problems.

DUG delivers a comprehensive geoscience offering backed by over two decades of experience and a focus on R&D. DUG maximises the value of seismic data with customised services, software and HPC solutions enabled by innovative technology – including Multi-parameter FWI Imaging.

DUG is a global company with offices in Perth, London, Houston, Kuala Lumpur and Abu Dhabi, supporting a diverse industrial client-base that includes radio-astronomy, biomedicine and meteorology, as well as the resource, government and education sectors. DUG designs, owns, and operates a network of some of the largest and greenest supercomputers on Earth. The company continues to invest and innovate at the forefront of software and HPC, working towards a climate-positive future.
